JIBIN MADAYIL JOHN

Business Technology Analyst | Oracle Cloud ERP Financials and EPM

Mississauga, ON | +1 (647) 868-3741 | jibinmadayil@gmail.com | linkedin.com/in/jibinmadayil | jibinmadayil.github.io

PROFESSIONAL SUMMARY

Business Technology Analyst specializing in Oracle Cloud ERP Financials and EPM, with implementation, hypercare and production support experience across healthcare, utilities, municipalities and public-sector education in Ontario, British Columbia and Alberta. Leads the full implementation cycle from RFP responses and solution demos through requirements, design, configuration, CRPs, training, UAT, go-live and support. Core expertise spans Oracle Fusion General Ledger, Fixed Assets, Budgetary Control, Cash Management, EPM Planning and Oracle Field Service, supported by OIC, data migration and reporting. Oracle certified in General Ledger, Fusion Data Intelligence, AI Database and Guided Learning.

SKILLS

- **Oracle Fusion Financials:** General Ledger (Chart of Accounts, Segment Value Security, Cross-Validation Rules, Journal Approvals, Revaluation, AutoReverse, Secondary Ledgers, Period and Year-End Close), Fixed Assets, Budgetary Control (Funds Check, Budget Writeback), Cash Management (Manual and Automatic Bank Reconciliation)
- **Oracle EPM Cloud:** EPM Planning (Financials, Projects, Valid Intersections, Business Rules, Groovy Rules), Essbase (BSO and ASO), Data Integration (Data Management, FDMEE, Data Exchange, Data Maps, Smart Push), EPM Automate, Smart View
- **Oracle Field Service:** Resource Management (Resource and Activity Models, Work Skills, Work Schedules), Routing (Routing Plans, Filters, Capacity), Security, Collaboration, HCM Integration
- **Reporting and Analytics:** Financial Reporting Studio (FRS), OTBI, Fusion Analytics, Oracle Analytics Cloud (OAC), Power BI, Tableau
- **Data:** FBDI, ADFdi, Python, SQL, Excel VBA
- **Implementation Delivery:** Requirements Gathering, Design Workshops, Business Process Design, Fit-Gap Analysis, Functional Specifications, Data Migration and Reconciliation, CRP, SIT/UAT, Training, Hypercare, Production Support

PROFESSIONAL EXPERIENCE

Business Technology Analyst *Aug 2025 to Present*

Novamodus Solutions Inc. | Mississauga, ON

Oracle Fusion Financials Lead (GL, Cash Management, EPM) | Hospital Client *Aug 2025 to Present*

- Led General Ledger production support for the hospital's finance team, running root-cause analysis, implementing approved fixes and documenting reusable guidance for business users.
- Implemented Segment Value Security (SVS) to enforce role-based access to chart-of-accounts values, and built FRS and OTBI reports for financial-statement and management reporting.
- Delivered the full Cash Management implementation, from bank and bank account setup through automated BAI2 statement processing, transaction creation and reconciliation matching rules, testing and user training.
- Gathered requirements and defined scope for expanding Payables, Purchasing and Cash Management to a second legal entity and integrating Raiser's Edge NXT with GL; prepared supporting SOW documentation.
- Identified the hospital's planning requirements and presented the Oracle EPM solution that became a follow-on EPM implementation for Novamodus.

Oracle ERP and EPM Functional Lead | Fusion GL, Budgetary Control, EPM Planning | Utility Client *Jan 2026 to Present*

- Led the end-to-end functional workstream for Oracle Fusion GL, Budgetary Control and EPM Planning, from requirements and design workshops through solution design, configuration, CRPs, training, UAT and support.
- Designed and implemented an integrated planning and budget-control solution; built financial data and metadata integrations, Budget Writeback, and Funds Check and Funds Reservation workflows across ERP and EPM.
- Configured EPM Planning Financials and Projects, including BSO/ASO cubes, Valid Intersections, bidirectional data maps, forms, calculations, business rules and an indirect cash-flow methodology.
- Configured journal approvals for Controllership and FP&A, Cross-Validation Rules, revaluation, AutoReverse and year-end close; designed a secondary-ledger approach for an alternate accounting calendar.
- Led train-the-trainer sessions and created the user guides for every module in scope: General Ledger, Budgetary Control and EPM Planning.

- Led data reconciliation, CRPs, integration testing and UAT; resolved MDX member and period-mapping failures, built Smart View and FRS reports, and supported ongoing planning, writeback and reporting cycles.

Oracle Field Service Functional Lead | School District Client *Jun 2026 to Present*

- Developed the solution approach, scope and effort estimate for the Field Service RFP response that Novamodus won.
- Led requirements-gathering and solution-design workshops, translating complex staffing policies into a fully customized Oracle Field Service application for teacher, clerical and support-staff replacement scheduling.
- Designed routing and assignment logic for qualifications, seniority, availability, employee categories, preferred resources and multi-day absences.
- Configured OFS resource and activity models, work skills, schedules, filters, routing plans, security, collaboration and employee-response workflows.
- Demonstrated the configured application to district stakeholders and secured sign-off to proceed to CRP 1; now defining advanced routing, custom plug-in and integration requirements, along with the testing and deployment approach.

Oracle Fusion Financials Lead (GL, Fixed Assets) | Municipal Client, British Columbia *Oct 2026 to Present*

- Lead the General Ledger and Fixed Assets workstreams through user acceptance testing, preparing test scenarios and supporting business users as they test, ahead of cutover and go-live.

Oracle EPM Lead (Financials, Projects) | Municipal Client, Alberta *Aug 2026 to Oct 2026*

- Led post-go-live hypercare for the EPM Planning Financials and Projects modules, diagnosing and fixing production issues across business rules, integrations and reports.
- Built new business rules for Financials and Project Planning calculations, and new integrations and reports for the finance team.

Additional Contributions

- Developed solution approaches, scope and effort estimates and delivered solution demos for multiple Oracle Cloud ERP, EPM and Field Service RFPs that Novamodus won.
- Trained department users on Oracle Analytics Cloud and Oracle Guided Learning.
- Supported technical hiring for Oracle Cloud and Business Analyst roles and built a hiring tracker in Excel, automated with VBA, that handles candidate routing, interview emails, scheduling and IT notifications across six departments.
- Developed the tool that took the firm's candidate interview test fully online, replacing the previous manual process.

EDUCATION

Postgraduate Diploma, Big Data Analytics *Apr 2024*
Lambton College, Mississauga

Bachelor's, Mathematics, Statistics and Computer Science *Aug 2021*
Osmania University, India
