JIBIN MADAYIL JOHN

Business Technology Analyst | Oracle Cloud ERP Financials and EPM

Mississauga, ON | +1 (647) 868-3741 | jibinmadayil@gmail.com | linkedin.com/in/jibinmadayil | jibinmadayil.github.io

PROFESSIONAL SUMMARY

Business Technology Analyst specializing in Oracle Cloud ERP Financials and EPM, with implementation, hypercare and production support experience across healthcare, utilities, municipalities and public-sector education in Ontario, British Columbia and Alberta. Leads requirements gathering, design workshops, solution design, configuration, integrations, testing, training, deployment and support. Core expertise spans Oracle Fusion General Ledger, Fixed Assets, Budgetary Control, Cash Management, EPM Planning and Oracle Field Service, supported by OIC, data migration and reporting. Oracle certified in General Ledger, Oracle Analytics Cloud and Oracle AI Database.

SKILLS

- **Oracle Fusion Financials:** General Ledger (Chart of Accounts, Segment Value Security, Cross-Validation Rules, Journal Approvals, Revaluation, AutoReverse, Secondary Ledgers, Period and Year-End Close), Fixed Assets, Budgetary Control (Funds Check, Budget Writeback), Cash Management (Manual and Automatic Bank Reconciliation)
- **Oracle EPM Cloud:** EPM Planning (Financials, Projects, Valid Intersections, Business Rules, Groovy Rules), Essbase (BSO and ASO), Data Integration (Data Management, FDMEE, Data Exchange, Data Maps, Smart Push), EPM Automate, Smart View
- **Oracle Field Service:** Resource Management (Resource and Activity Models, Work Skills, Work Schedules), Routing (Routing Plans, Filters, Capacity), Security, Collaboration, HCM Integration
- **Reporting and Analytics:** Financial Reporting Studio (FRS), OTBI, Fusion Analytics, Oracle Analytics Cloud (OAC), Power BI, Tableau
- **Data:** FBDI, ADFdi, Python, SQL, Excel VBA
- **Implementation Delivery:** Requirements Gathering, Design Workshops, Business Process Design, Fit-Gap Analysis, Functional Specifications, Data Migration and Reconciliation, CRP, SIT/UAT, Training, Hypercare, Production Support

PROFESSIONAL EXPERIENCE

Business Technology Analyst *Aug 2025 to Present*

Novamodus Solutions Inc. | Mississauga, ON

Oracle Fusion Financials Lead (GL, Fixed Assets) | Municipal Client *Oct 2026 to Present*

- Took over the General Ledger and Fixed Assets workstreams at the UAT phase of the municipality's Oracle Fusion implementation and own both modules from UAT onward.

Oracle EPM Consultant (Financials, Projects) | County Client *Sep 2026 to Present*

- Took ownership of the county's EPM Planning application after go-live and led hypercare for the Financials and Projects modules.
- Diagnosed and fixed production issues raised by users across business rules, integrations and reports.
- Built new business rules for Financials and Project Planning calculations, and new integrations and reports for the finance team.

Oracle Field Service Functional Lead | School Client *Jun 2026 to Present*

- Led requirements-gathering and solution-design workshops with business stakeholders, translating complex staffing policies into a customized Oracle Field Service solution for teacher, clerical and support-staff replacement scheduling.
- Designed routing and assignment logic for qualifications, seniority, availability, employee categories, preferred resources and multi-day absences.
- Configured OFS resource and activity models, work skills, schedules, filters, routing plans, security, collaboration and employee-response workflows.
- Completed fit-gap analysis, solution-design documentation and proof-of-concept configuration; delivered a client demonstration that secured stakeholder sign-off to proceed to CRP 1, then defined advanced routing, custom plug-in, integration, testing and deployment requirements.

Oracle ERP and EPM Functional Lead | Fusion GL, Budgetary Control, EPM Planning | Utility Client *Jan 2026 to Present*

- Led the end-to-end functional workstream for Oracle Fusion GL, Budgetary Control and EPM Planning, facilitating requirements-gathering and design workshops and owning solution design, configuration, testing, training, deployment and support.

- Designed and implemented an integrated planning and budget-control solution; built financial data and metadata integrations, Budget Writeback, and Funds Check and Funds Reservation workflows across ERP and EPM.
- Configured EPM Planning Financials and Projects, including BSO/ASO cubes, Valid Intersections, bidirectional data maps, forms, calculations, business rules and an indirect cash-flow methodology.
- Configured journal approvals for Controllership and FP&A, Cross-Validation Rules, revaluation, AutoReverse and year-end close; designed a secondary-ledger approach for an alternate accounting calendar.
- Developed Smart View and FRS reports and authored GL end-user guidance for ADFdi journals and FRS, improving user readiness for reporting and journal entry.
- Led data reconciliation, CRPs, integration testing, UAT and train-the-trainer sessions; resolved MDX member and period-mapping failures and supported ongoing planning, writeback and reporting cycles.

Oracle Fusion Financials Lead (GL, Cash Management) | Hospital Client *Aug 2025 to Present*

- Identified the hospital's financial planning requirements, presented an Oracle EPM solution to stakeholders, and helped secure a new EPM implementation engagement for Novamodus.
- Resolved complex General Ledger and Cash Management production issues across journals, accounting periods, bank statements, reconciliation and reporting, helping sustain accurate period-end close.
- Led end-to-end root-cause analysis, evaluated cross-functional impacts, implemented approved fixes and workarounds, and documented reusable guidance for business users.
- Implemented Segment Value Security (SVS) to enforce role-based access to chart-of-accounts values and developed FRS reports for financial-statement and management reporting.
- Configured BAI2 parse, transaction-creation and reconciliation-matching rules; produced a 42-code mapping workbook to standardize bank-transaction classification and reconciliation.
- Gathered requirements and defined scope for expanding Payables, Purchasing and Cash Management to a second legal entity and integrating Raiser's Edge NXT with GL; prepared supporting SOW documentation.

Additional Contributions

- Developed solution approaches, scope and effort estimates for multiple Oracle Cloud ERP, EPM and Field Service RFPs, contributing to successful new-business wins for Novamodus.
- Trained department users on Oracle Analytics Cloud and Oracle Guided Learning.
- Supported technical hiring for Oracle Cloud and Business Analyst roles and built a VBA-automated tracker that streamlined candidate routing, interview scheduling and notifications across six departments.

EDUCATION

Postgraduate Diploma, Big Data Analytics *Apr 2024*
Lambton College, Mississauga

Bachelor's, Mathematics, Statistics and Computer Science *Aug 2021*
Osmania University, India
